Delicately Formed

and gently reared, women will find in all the seasons of their lives, as maidens, wives and mothers, that the one simple, wholesome laxative remedy, which acts gently and pleasantly and naturally and which may be taken at any time, when the system needs a laxative, with perfect safety and really beneficial effects, is Syrup of Figs and Elixir of Senna.

It has that true delicacy of flavor which is so refreshing to the taste, that warming and grateful tinging to the stomach which responds so favorably to its action and the laxative effect which is so beneficial to the system when, occasionally, its gentle cleansing is required.

The genuine, always bearing the name of the California Fig Syrup Co., may be purchased from all leading druggists in original packages of one size only, price fifty cents per bottle.

WRONG POLL TAXES USED IN ELECTION

Marfa Commissioners Sit as Tribunal—Marfa News Notes.

Marfa, Tex., Feb. 17.—Tresid county commissioners sitting at Marfa have declared the recent Candelaria bond issue election unconstitutional. Attorneys Pat Clark, of El Paso, and R. B. Russell, of Marfa, handled the case.

Attorney R. H. Hays, for Candelaria citizens, who was ill and confined to his room, asked for a two days' postponement of the case, until he could be heard, but was refused a hearing. This is claimed to be unprecedented action, and the right of the county commissioners to sit as a tribunal of justice and raise constitutional objections is questioned—hence mandamus proceedings may follow.

According to the attorney general's ruling, the voters at the Candelaria election were in error on account of 1298 instead of 1938 poll tax books being used. It seems that both were in evidence. If the commissioners persist in pursuing this precedent, it will develop into an anomalous, if not phenomenal tribunal.

G. E. Thus, of Horton, Mass., has returned to Marfa from a two weeks' outing in the Rio Grande country. He stated that an irrigation canal five miles long was being made from the river east of Candelaria, which will afford water

for several thousand acres of rich land. Three miles of the canal is completed.
